

NU-QUAT

Neutral Disinfectant – Cleaner – Deodorizer

Form: Liquid

Color: Green

Odor: Mint

pH: 7.4-8.4

Solubility (in water): Soluble
(in mineral spirits): Insoluble

VOC Content (% by weight): <1.0%

Flash Point (ASTM D-7821): >200 °F

Specific Gravity: 1.00 g/cm³

Density: 8.35 lbs /gal

Storage Stability (at 70°F): 1 year

Ingredients

	<u>C.A.S. #</u>
Water	7732-18-5
N,N-Didecyl-N,N-dimethylammonium chloride	7173-51-5
n-Alkyl-N,N-dimethylbenzylammonium chloride	8001-54-5
Ethylenediaminetetraacetic Acid	60-00-4
Sodium Hydroxide	1310-73-2

NU-QUAT is...

- **Virucidal**
- **Fungicidal**
- **Bactericidal**
- **Pseudomonicidal**
- **Staphylocidal**
- **Salmonellicidal**

**Consult the product label
for a complete list of claims.**

GENERAL USE DIRECTIONS: Not for use on living humans or animals. Do not use in combination with soap or any other product. Working solution should be freshly prepared, used only once, and then discarded; it may not disinfect properly if reused, diluted, or soiled. Prepare the working solution by diluting 2 fl. oz. of this concentrate to 1 gallon with potable (drinking) water. Remove gross filth and heavy soil deposits from surfaces. Apply the working solution with a mop, sponge, cloth, or by spraying or soaking, making sure surfaces are thoroughly wetted. Allow surface(s) to air dry. Except for HIV-1, complete disinfection requires a minimum contact time of 10 minutes at about 68 °F. Rinsing is not necessary unless surfaces are to be coated (waxed, polished, painted, etc.). NU-QUAT is effective against HIV-1 in 4 minutes at room temperature (68 to 77 °F).

CONSULT PRODUCT LABEL FOR DETAILED USE INSTRUCTIONS.
