

GUARD ALL

Vinyl Conditioner & Protectant

Form: Liquid

Color: White

Odor: Essentially Odorless

pH: 6.00 - 9.00

Solubility (in water): Soluble
(in mineral spirits): Insoluble

VOC Content (% by weight): <1.0 %

Flash Point (ASTM D-7821): None

Specific Gravity: 1.00 g/cm³

Density: 8.35 lbs/gal

Storage Stability (at 70°F): 1 year

Ingredients

C.A.S. #

Water.....	7732-18-5
Dimethylpolysiloxane.....	63148-62-9
Silicone Emulsion.....	No CAS Number
Poly (oxyethylene) Nonylphenol.....	9016-45-9
5,5-Dimethylhydantoin.....	77-71-4

Other Uses...
• Mold Release
• Conveyor Lubricant
• Convertible Top Dressing
• Marble Shiner
• Snow Plow Coating
• Valve Lubricant
• Static Control
• Wood Bar Slide

DIRECTIONS: To use, spray on the surface or spread evenly with a cloth. Allow GUARD ALL to penetrate several hours and wipe off with a dry cloth. We recommend up to three applications if GUARD ALL has not been used before. Maintain finish as needed. Do not allow overspray to get on smooth floor as it will create a slippery surface. Keep drum closed when not in use. Do not store near flame or extreme heat.
