

NATURAL FLOATING LIFT STATION DEGREASER

Natural Floating Degreaser

Form: Liquid

Color: Reddish-Orange

Odor: Citrus

pH: N/A

Solubility (in water): Insoluble
(in mineral spirits): Soluble

VOC Content (% by weight): >90.0

Flash Point (ASTM D-7821): 115°F

Specific Gravity: 0.84 ± 0.01 g/cm³

Density: 7.01 ± 0.05 lbs/gal

Storage Stability (at 70°F): 1 year

Ingredients

C.A.S. #

d-Limonene.....5989-27-5
 Red Dye.....No CAS Number

Use as...	
•	Electric Motor Cleaner
•	Parts Washer Solvent
•	Vault Toilet Deodorizer
•	Garbage Truck Deodorizer
•	Grease Trap Maintainer
•	Generator Degreaser
•	Cable Cleaner

DIRECTIONS: Use 1/2 gallon of NATURAL FLOATING LIFT STATION DEGREASER for each square foot of water surface area. To determine this surface area in square feet, measure the diameter of the lift station in feet and then calculate surface area by multiplying 3.14 x (radius)². Note: The radius is half of the diameter of the lift station. Spray or pour directly down lift station walls when water is at its lowest level.

It is recommended to maintain a 1 to 2 inch layer of NATURAL FLOATING LIFT STATION DEGREASER at all times. A built-in color level indicator allows the operator to determine product level by visual inspection.
