DANGER:

Flammable liquid and vapor. May be fatal if swallowed and enters airways. May cause an allergic skin reaction.

Keep away from heat, open flames, sparks. - No smoking. Keep container tightly closed. Ground/Bond container and receiving equipment. Use explosion-proof electrical, lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist, spray. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection, protective clothing, protective gloves.

IF SWALLOWED: Immediately call a doctor, a POISON CENTER. Do NOT induce vomiting.

IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse.

If skin irritation or rash occurs: Get medical advice/attention.

For industrial and commercial use only.

For additional information, see Safety Data Sheet.

In case of fire: Use carbon dioxide (CO2), dry extinguishing powder, foam to extinguish.

Store in a well-ventilated place. Keep cool. Store locked up.

Dispose of contents/container to comply with local/regional/national/international regulations.

NFPA® RATINGS:

Health: 2; Flammability: 2; Reactivity: 0

Keep equipment looking new with **SALT DEFENSE** from Share. Chemical additives have been incorporated to protect surfaces from corrosion, nicks, scratches and scrapes. **SALT DEFENSE** also serves two other important functions - it provides a high gloss to all painted and plated metal surfaces and it creates a slick surface that keeps unwanted deposits from adhering to equipment making clean up quick and easy.

DIRECTIONS:

Apply with a sprayer, paint roller or brush. For best results and longer life, wash equipment thoroughly and allow to dry before applying **SALT DEFENSE**. Two light coats, allowing one hour of drying time between applications, will provide good protection and prevent unwanted deposits from bonding to the surface.

For maximum protection, apply **SALT DEFENSE** at the end of each work period. Several applications over summer storage periods will preserve equipment.

SALT DEFENSE is ideal for use on snow plows, underbodies of vehicles, salt spreaders, shovels, loaders, snow throwers and truck beds to allow easier, more complete dumping.

INGREDIENTS/CAS #:

Distillates (Petroleum), Hydrotreated Light (64742-47-8); Polydimethylsiloxane (63148-62-9); Fragrance (Mixture); Toluene (108-88-3); Benzene (71-43-2).

WARNING: This product can expose you to benzene, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
