

# COIL CLEANER & DEGREASER

## Hygroscopic Coil Cleaner

**Form:** Liquid

**Color:** Yellow

**Odor:** Detergent

**pH:** 12.75-13.75

**Solubility (in water):** Soluble  
**(in mineral spirits):** No data available

**VOC Content (% by weight):** <3%

**Flash Point (Closed Cup):** >200°F

**Specific Gravity:** 1.05 g/cm<sup>3</sup>

**Density:** 8.80 lbs/gal

**Storage Stability (at 70°F):** 1 year

<u>Ingredients</u>	<u>C.A.S. #</u>
Water.....	7732-18-5
2-Butoxyethanol.....	111-76-2
Sodium Tripolyphosphate.....	7758-29-4
Potassium Hydroxide.....	1310-58-2
Sodium Metasilicate .....	6834-92-0

### Other COIL CLEANER & DEGREASER Uses

- **Chalkboard Cleaner**
- **Steam Cleaner Concentrate**
- **Concrete Floor Cleaner**
- **Fire Hose & Coat Cleaner**
- **Tile and Grout Cleaner**
- **Wax Stripper**
- **Hot Tank Degreaser**

**DIRECTIONS:** For coils and heat exchange units where no condensation occurs: Spray a 4 to 1 solution of COIL CLEANER & DEGREASER on the coils, etc. Allow it to stand for a few minutes. Rinse with water.

For coils, tubes, and fins where condensation occurs: Dilute 1 part COIL CLEANER & DEGREASER with 4 parts water. Spray solution on coils or other areas to be cleaned. Turn the unit on or spray while the unit is already on. The COIL CLEANER & DEGREASER solution will lift the dirt, tar and lint from sprayed areas and suspend it in the non-drying solution. Then as the unit condensates, this solution, along with the dirt suspended in it, will be washed from the coils into the pan and down the drain.
