Evaporator Coil Cleaner & Disinfectant

Form: Aerosol

Color: White foam

Odor: Citrus scent, mild ammonia

pH: 12.3

Solubility (in water): Soluble

(in mineral spirits): No data available

VOC Content (% by wt.): 16

Flash Point (ASTM D-7821): No data available

Specific Gravity: 1.00 g/ml

Density: 8.35 lbs/gal

Storage Stability (at 70°F): 1 year

Ingredients

C.A.S. #

Water	7732-18-5
2-Butoxyethanol	111-76-2
Propane/n-Butane	68476-86-8
Isopropyl Alcohol	67-63-0
EDTA	60-00-4

Easily Removes...

- **Hard Water Deposits**
- **Dirt**
- **Scale**
- **Dust**
- **Grease**
- **Oil**
- **Dust**

Improves Indoor Air Quality

DIRECTIONS: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. To disinfect hard non-porous surfaces (such as HVAC catchpans and air conditioning evaporator coils), proceed as indicated: Shake can before using. Hold six to eight inches from surface to be treated. Spray area until it is covered with a white foam. Allow foam to penetrate and remain wet for 10 minutes. No scrubbing necessary. Wipe off with a clean cloth, mop or sponge. **Mildewstat:** To control mold and mildew on pre-cleaned, hard, non-porous surfaces (such as floors, wall, table tops) spray surfaces to be treated, making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.
